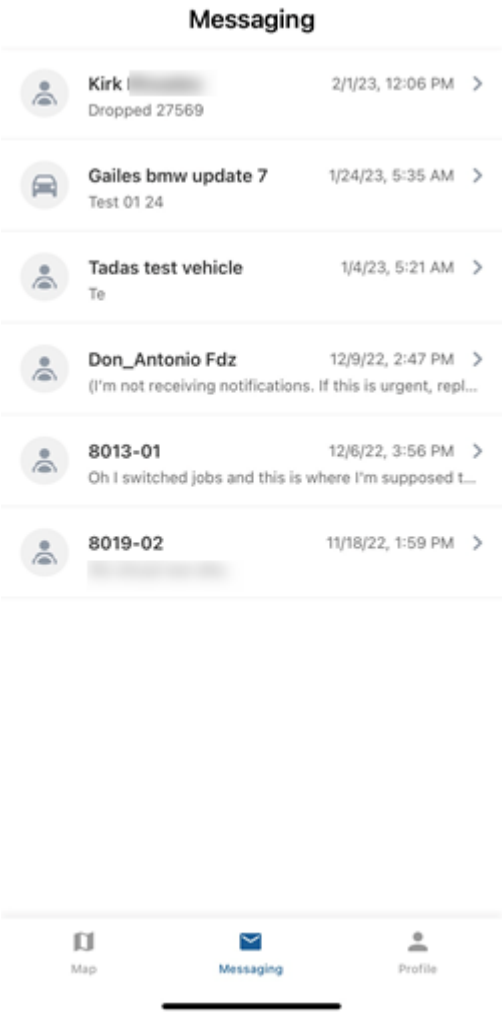
Manager App: Messaging

Link: https://help.gpsinsight.com/docs/about-gps-insight-manager/manager-app-messaging/ Last Updated: February 17th, 2023

The Messaging Page allows you to send SMS messages from the App to your fleet vehicles. Messages can be sent to any vehicle with a valid phone/SMS number. You can also review received messages from the Messaging Page.

Sending Messages

You can send a new message from an existing messaging thread listed on the Messaging Page.



Note. If you need to send a message to a vehicle/driver and there is no current thread listed on the Messaging Page, please follow the directions listed under Contacting a Driver, selecting the Send Message option.

How to send a message:

1. From the Messaging page, tap the vehicle label of the vehicle you would like to message.

   The message thread appears.

2. Type in your message in the text field and tap **Send**.

   The message is sent.
