

The Portal interface is quick, simple, and highly configurable. With just a few clicks, you can run any report or view the map for a single vehicle, a group of vehicles, or your entire fleet. Schedule reports, set up alerts, or administer your vehicle, driver, and user groups easily from our efficient web-based interface.

Note. Enterprise Driver and driver groups are only available with Enterprise. To learn more, contact your Account Manager.

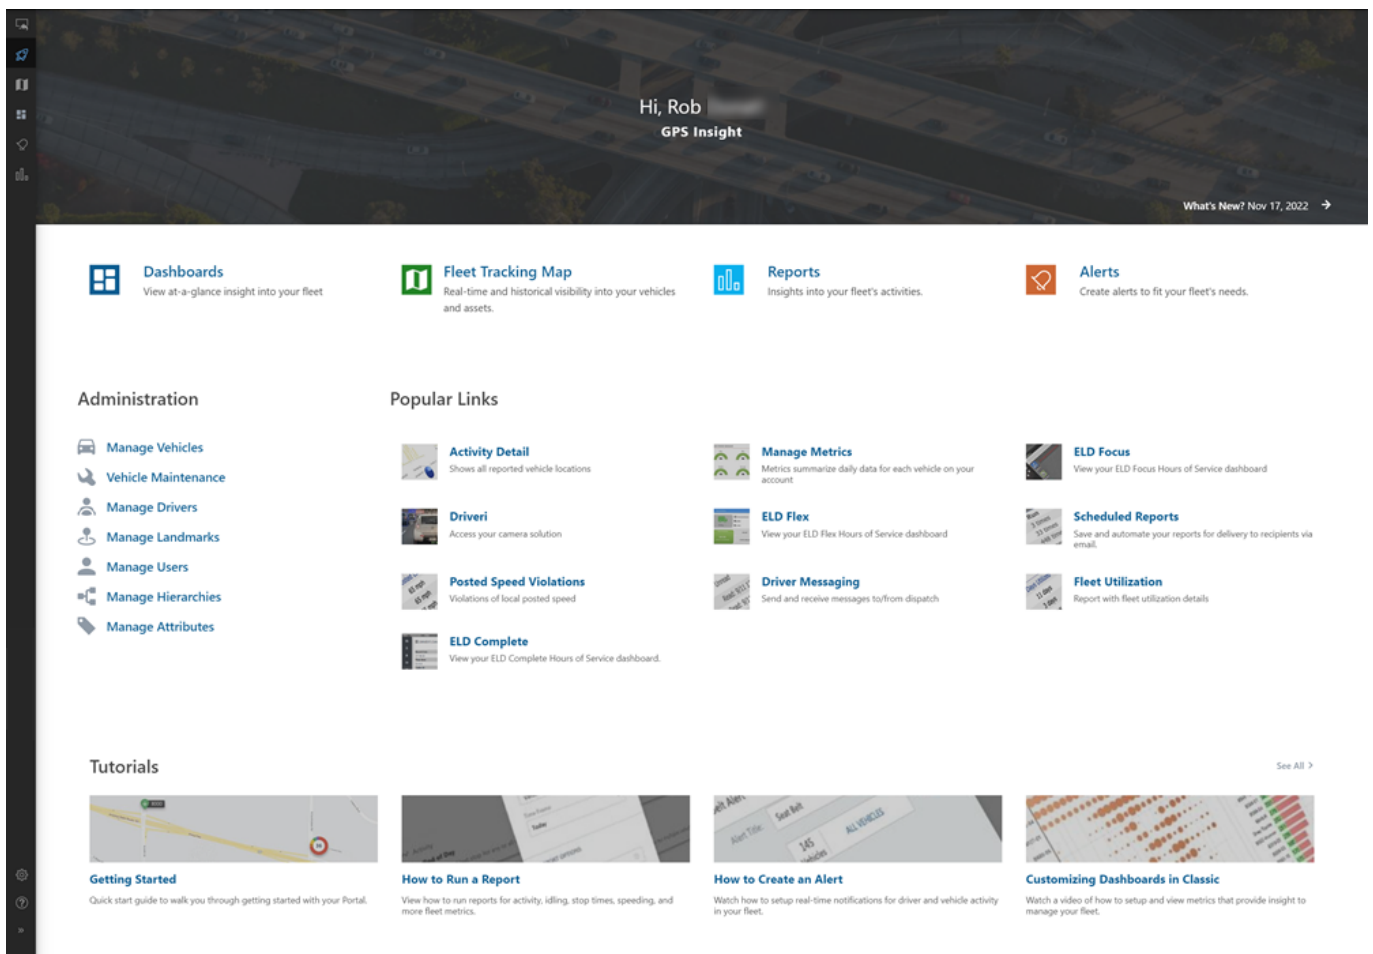

You can also gain insight into your fleet via real-time maps, vehicle location lists, alerts, graphs, messages, landmark visits, and more.

Overview

The Portal welcomes you with the Explore Page upon sign-in. This page offers quick access to areas of interest such as reports, alerts, fleet administration, chat support, and more via clickable links. You can also access New Release information, tutorials, and quick links to other helpful resources.

Note. Our original Portal, Classic Portal, is still available and accessible from the Explore Page.

The screenshot displays the GPS Insight Portal interface. At the top, a header bar shows a map background with the text "Hi, Rob" and "GPS Insight". Below this, a navigation bar contains four main sections: "Dashboards" (View at-a-glance insight into your fleet), "Fleet Tracking Map" (Real-time and historical visibility into your vehicles and assets), "Reports" (Insights into your fleet's activities), and "Alerts" (Create alerts to fit your fleet's needs). The main content area is divided into three columns. The left column, titled "Administration", lists links for "Manage Vehicles", "Vehicle Maintenance", "Manage Drivers", "Manage Landmarks", "Manage Users", "Manage Hierarchies", and "Manage Attributes". The middle column, titled "Popular Links", features tiles for "Activity Detail" (Shows all reported vehicle locations), "Driveri" (Access your camera solution), "Posted Speed Violations" (Violations of local posted speed), "ELD Complete" (View your ELD Complete Hours of Service dashboard), "Manage Metrics" (Metrics summarize daily data for each vehicle on your account), "ELD Flex" (View your ELD Flex Hours of Service dashboard), "Driver Messaging" (Send and receive messages to/from dispatch), and "ELD Focus" (View your ELD Focus Hours of Service dashboard). The right column, titled "Tutorials", includes tiles for "Scheduled Reports" (Save and automate your reports for delivery to recipients via email), "Fleet Utilization" (Report with fleet utilization details), "Getting Started" (Quick start guide to walk you through getting started with your Portal), "How to Run a Report" (View how to run reports for activity, idling, stop times, speeding, and more fleet metrics), "How to Create an Alert" (Watch how to setup real-time notifications for driver and vehicle activity in your fleet), and "Customizing Dashboards in Classic" (Watch a video of how to setup and view metrics that provide insight to manage your fleet). A "See All" link is located at the bottom right of the Tutorials section.

Navigation

From the Explore Page, use the Navigation Bar on the left-hand side of the screen to access other Portal pages, adjust your preferences, get help, or collapse/expand your Navigation Bar.

Available Portal pages include:

- **Map** – The Map transforms your workspace to a single 2D map with quick access to management of drivers, vehicles, landmarks, dispatch, and POIs.
- **Alerts** – Create and manage alerts for hierarchies, vehicles, and vehicle groups.
- **Reports** – Run ad-hoc and/or schedule configurable reports with the data you need to see.

Note. You can also click on Classic from the Navigation Bar to access the original version of the Portal. This version is still fully functioning.

You may also use the Page tiles to access Dashboards, Map, Reports, and Alerts pages.
