About Vehicles on the Map
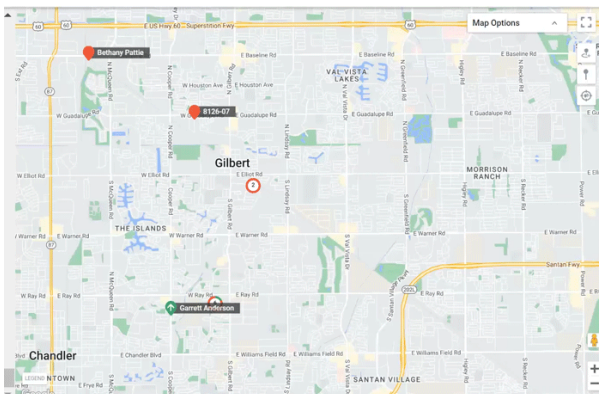

All of your registered vehicles and/or assets are visible on the map by color code and shape (if assigned).

Map Legend

Click on the Legend button to view the definition of the colors and shapes on the map.

Color Coding

Vehicles are color-coded according to their current status (i.e., moving, idling, stopped).

Colors

- 🟢 Moving >= 67 mph
- 🟢 Moving < 67 mph
- 🔵 Idling >= 3 min
- 🟡 Stopped < 60 min
- 🔴 Stopped >= 60 min
- 🟣 Asset or Trailer
- 🟠 Out of Range
- ⚫ Out of Range > 60 days

Shape Coding

You can also identify your vehicles on the map easily by assigning shapes to your vehicles. Shapes are

customizable. Instead of using a default marker ( ), you can assign different icon shapes to different vehicles to get an immediate visual indicator for the vehicle type, category, etc.

Shapes　　　　　**Edit**

- ★ Rush Delivery
- ● Circle
- ▲ Chicago
- ✚ Supervisors
- ◼ Always Late
- Boom
- Fast Cars
- SUV
- Truck w Dump Hoist
- Light Duty Hybrid
- Water Truck
- Box Truck
- Pickup Truck
- Flatbed
- Pickup w Trailer
- Trailer w Hitch
- Lift Truck
- Iris

Vehicle List

In the Vehicle List and drop-downs, vehicles are listed alphabetically (by vehicle label) or chronologically (if vehicle label is numeric).

When you click on a vehicle from a list or from a map, the Vehicle Card appears, which shows you the duration of vehicle status, last reported time of ignition status, address and geocode of last reported location, and more.
