Need to see a newly installed device on the map? Car or truck not showing up? Check out the information below.

Click the **Vehicles** menu item to open the Vehicles tab. All of your vehicles and their color-coded statuses are listed on this tab.

The screenshot shows the 'VEHICLES' tab selected. On the left, there is a list of vehicles with their names and status icons: 52 JEFF (red dot), 53 STACY (blue dot), 51 LINDA (yellow dot), 50 BRAD (green dot with arrow), and 54 MIKE (orange dot). On the right, there is an 'Icon Colors:' legend with the following entries: Stopped >= 60 min (red dot), Out of Range (orange dot), Stopped < 60 min (yellow dot), Moving >= 67 mph (green dot with arrow), Moving < 67 mph (green dot with arrow), Idling >= 3 min (blue dot), and Asset or Trailer (purple dot).

When you click on a vehicle from the list or when you click on a vehicle from the map, the **Vehicle Card** appears, which shows you the duration of vehicle status, last reported time of ignition status, address and geocode of last reported location, and current odometer reading (GPS odometer). Additional menu items are also available for the selected vehicle.

The screenshot shows a map with a green dot representing vehicle 50 BRAD. A 'Vehicle Card' is overlaid on the map, displaying the following information: 50 BRAD, 36 mph E (max) 0:11 ago, Ignition on recorded 11:54:55 am, 5557 E Pinnacle Vista Dr, Phoenix, AZ 85050, 33.7338326/-111.9633263, and 10,208 miles. Below the card, there is a menu with the following items: History, Edit, Closest To, Directions, Center, Follow, Messages, Landmark, and Street View.

Note. "Help! Why can't I see my vehicles on the map?" Ensure the **map filters** are turned off (i.e., show ALL VEHICLES).

Click the **Vehicles** menu item to open the Vehicles tab. All of your vehicles and their color-coded statuses are listed on this tab. If you want to see vehicles listed by group, click the **Groups** tab.

VEHICLES **GROUPS**

+ Add Vehicle

- 52 JEFF
- 53 STACY
- 51 LINDA
- 50 BRAD
- 54 MIKE

Icon Colors:

- Stopped >= 60 min
- Out of Range
- Stopped < 60 min
- Moving >= 67 mph
- Moving < 67 mph
- Idling >= 3 min
- Asset or Trailer

 **Note.** If your vehicle(s) are equipped to monitor PTO, vehicles will be represented with a **star icon** and trails will be thicker when PTO is engaged. The thresholds shown in the legend are customizable with the **Pro product**. You can find out more about the Map Legend, including Icon Shapes, from the **More** tab.

When you click on a vehicle from the list or when you click on a vehicle from the map, the **Vehicle Card** appears, which shows you the duration of vehicle status, last reported time of ignition status, address and geocode of last reported location, and current odometer reading. Additional menu items are also available for the selected vehicle.

 **Note.** "Help! Why can't I see my vehicles on the map?" Ensure the **map filters** are turned off (i.e., show **ALL VEHICLES**).

All of your registered vehicles and/or assets are visible on **maps** and **dashlets**. Vehicles are color-coded according to their current status (i.e., moving, idling, stopped).

Legend: Colors	
	Stopped >= 60 min
	Out of Range
	Stopped < 60 min
	Moving >= 67 mph
	Moving < 67 mph
	Idling >= 3 min
	Asset or Trailer
	Out of Range > 30 days
	Service Reminder

Note. The thresholds shown in the legend are customizable. Click the User Preferences icon () on the dashboard to set thresholds for Speed (mph), Idle Time (minutes) Stop Time (minutes), and Out of Range (minutes).

Icon shapes are also customizable. Instead of using a circle (), you can assign different **icon shapes** to different vehicles to get an immediate visual indicator for the vehicle type.

In dashlets and drop-downs, vehicles are listed alphabetically (by vehicle label). When you click on a vehicle from a list or from a map, the **Vehicle Card** appears, which shows you the duration of vehicle status, last reported time of ignition status, address and geocode of last reported location, and more.
