

The dashboard interface allows you to arrange, customize, and share several configurations of workspaces. Moveable windows called dashlets provide at-a-glance insight into the fleet management areas that interest you most and allow you to interact with vehicle data.

**Note.** Not all dashlets may be available to your account.

Review these four areas of the dashboard interface for key terminology:

The screenshot shows the dashboard interface with four numbered callouts:

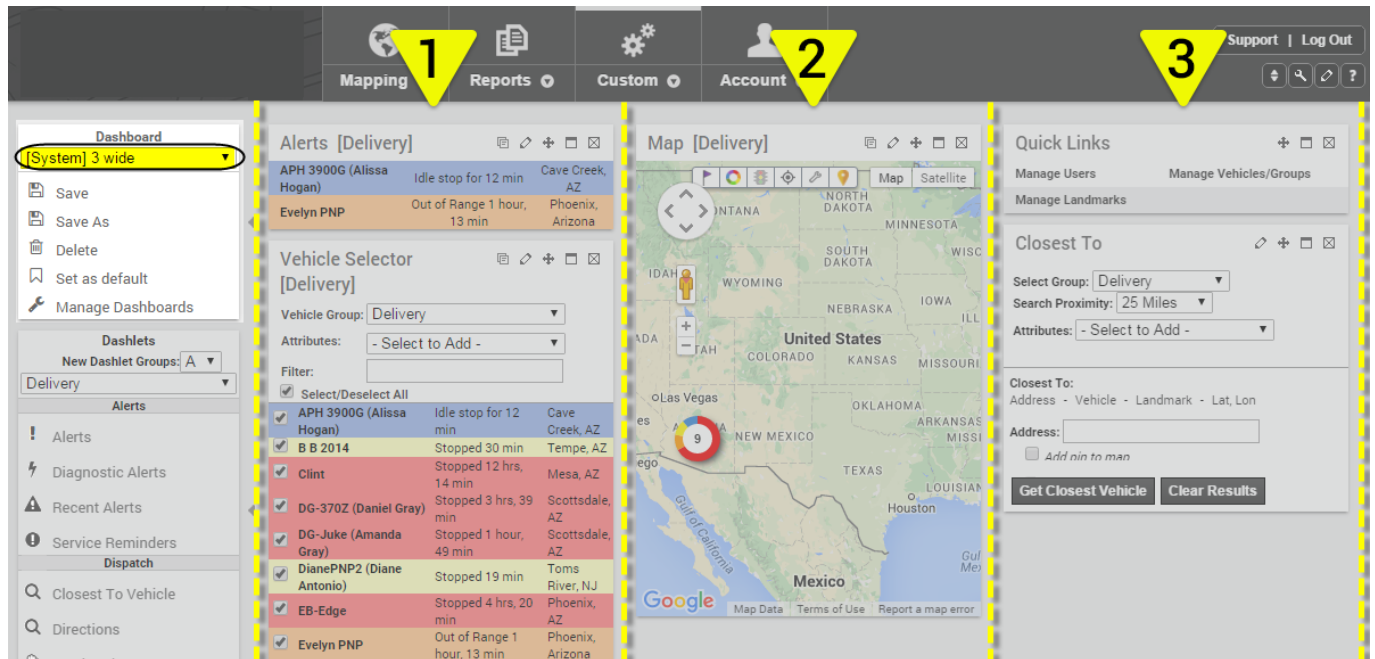

- 1 - Menu Bar:** Located at the top, containing 'Mapping', 'Reports', 'Custom', and 'Account' options.
- 2 - Dashboard Control:** A sidebar on the left with options like 'Save', 'Save As', 'Delete', and 'Set as default'.
- 3 - Dashlets Control:** A sidebar on the left with 'Dashlets' and 'Alerts' sections, including options like 'Alerts', 'Diagnostic Alerts', and 'Service Reminders'.
- 4 - Dashboard:** The main content area featuring a 'Map [Delivery]' with a red circle around a vehicle, a 'Legend [ABC HVAC]' with color and shape keys, an 'Alerts [ABC HVAC]' section showing 'Long 3900 335i' with 'Out of Range 6 hrs, 39 min', an 'Idle Hours Graph [Delivery]' showing bars for various vehicles, and a 'Vehicle Selector [Delivery]' table.

Vehicle	Status	Location
APH 3900G (Alissa Hogan)	Stopped 4 hrs, 36 min	Scottsdale, AZ
B B 2014	Stopped 12 hrs, 39 min	Tempe, AZ
Clint	Stopped 19 hrs, 38 min	Mesa, AZ
DG-370Z (Daniel Gray)	Stopped 6 hrs, 40 min	Scottsdale, AZ
DG-Juke (Amanda Gray)	Stopped 5 hrs, 10 min	Scottsdale, AZ
DianePNP2 (Diane Antonio)	Stopped 2 hrs, 19 min	Toms River, New Jersey
EB-Edge	Stopped 22 hrs, 14 min	Phoenix, AZ
Evelyn PNP	Out of Range 4 hrs, 29 min	Scottsdale, AZ
F-150 (Jennifer Meyers)	Stopped 1 min	Phoenix, AZ
John GTI (John Gaither)	Stopped 1 day, 5 hrs	High Point, NC
Kristin PNP-3000V (Kristin Lisson)	Stopped 5 hrs, 48 min	Scottsdale, AZ

<b>1 - Menu Bar</b>	Access maps, reports, other account features, <b>menu options</b> , user preferences, tab settings, and Help.
<b>2 - Dashboard Control</b>	Modify and save dashboard layouts.
<b>3 - Dashlets Control</b>	Drag-and-drop dashlets onto the dashboard layout.
<b>4 - Dashboard</b>	View and interact with individual dashlets.

When you first log into the portal, the default dashboard appears ([System] 2 wide L). You can toggle to different dashboards using the Dashboard Control (circled below). For example, the dashboard in the following figure uses a three column layout (equal widths) and six dashlets: Alerts, Vehicle Selector, Map, Quick Links, and Closest. (See Dashlets for more examples.)

 **Tip!** Want more room on the dashboard? Minimize the control panels by clicking the arrow icon ().

 **Note.** The [System] Map Dashboard is a special type of dashboard that does not allow you to configure the layout.

You can rearrange individual dashlets by simply dragging-and-dropping them on the screen.

You can also minimize, configure, add, or remove dashlets using the Move , Show/Hide , Edit , Add , Copy  or Close  icons.

Drag a vehicle from a dashlet onto an area of the dashboard to automatically add a map dashlet that follows the selected vehicle.
