

The Manage tab allows you to view and edit carrier details, including profile settings, drivers, home bases, assets, and notifications.

Multi Operating Authority

The Multi Operating Authority is a hierarchy structure offering the ability to manage multiple Carriers, Drivers, Home Bases and Assets. For example, a driver account assigned to an MOA account, can operate under any Carrier belonging to that MOA account and choose any assets as well under that MOA account.

Multi Operating Authority

Selected MOA: **TBHC DBH**
