

This Product Release Notes announcement includes notification of updates for Safety Cameras.

Safety Cameras

Introducing the Drive360 Safety Camera

The Drive360 camera generates alerts from G-Force-based events (acceleration, braking, turning, etc.,) offering in-cab audio alerts and video of the event available for viewing in the GPS Fleet Tracking Portal from the Camera Events section of Vehicle Cards for vehicles equipped with the Drive360 device.

To learn more, please visit [About Drive360](#).
