

Link: <https://help.gpsinsight.com/driveri-release-8-28-2023/> Last Updated: August 24th, 2023

The following release for Driveri is available to all Driveri customers now.

Feature Update – Updated Device Health Status

New Device Health Status Columns Available

The Device Summary provides in-depth insight into the health statuses of Driveri cameras to specify if the vehicle is assumed in service or not in service with Device Status and Vehicle Status columns.

Note. Additionally, the column titled “Last Received Driver Data” provides further drill-down data to specify the date and time when driver assignment data was last received from the device.

The Device Status and Vehicle Status columns provide at-a-glance status data as to the device and vehicle status within the fleet.
