ELD Flex Portal & Server Release 12/27/2021

This Release Notes announcement is for ELD with Flex users.

What's New

Portal

- Admin & Driver's Portal – Logs page: Displaying seconds on the events history list and total hours per duty status at the right of the Grid Chart to have an exact total of 24hrs.

  > **Note.** To display the seconds, navigate to the HOS app>Settings>Hours of Services Preferences>Other section and enable the Display Time With Seconds option.

Server

- HOS Reports – Certified Logs: Fixed an issue where the Uncertified Logs report PDF is always empty.

- Updated Log4J version to address recently reported vulnerabilities.
