ELD Flex Portal & Server Release 3/11/2022

This Release Notes announcement is for ELD with Flex users.

What's New

Portal

Logs Page

- The 'Well Site' or '5th grid chart line' is removed when the Oilfield Operation exception is added.

Data Transfer Page

- The 'Comment' label is now named 'Safety Official/Investigation Code'

State Mileage > Reports page

- Addition of year '2022' in the 'Year' dropdown list on the following dialog:
  – Fuel & Mileage
  – State Mileage Audit
  – Fuel Summary

User Roles page > Add New User Role dialog

- Addition of 'PERM_VIEW_SUB_ACCOUNTS' user permission.

- Enabling this permission will allow a user to switch accounts in the portal and can only view the data within that account.

Bug Fixes

Portal Fixes:

- Fixed an issue where the Grid Chart line is not displaying properly when Oilfield exception is enabled and Use 5th line is disabled on the application, [Logs Page]

Server Fixes:

- Fixed an issue where the Odometer Offset was not being included on the Mileage by State report. [State Mileage Page]

- Changed the DVIR French PDF report's 3rd signature label to "Signature du reviseur." [DVIR History Page]

- Fixed an issue where the order of vehicles on the CMV List was incorrect. [ELD CSV Output File – Canada]

- Fixed an issue where the record originator of the default Off Duty was incorrect. [ELD CSV Output File –

Canada]

- Fixed an issue where the User List was showing incorrect ranking of users. [ELD CSV Output File – Canada]

- Fixed an issue where the Event Data Check values were incorrect under the Unidentified Drivers Profile segment. [ELD CSV Output File – Canada]

- Fixes an issue where the Event Data Check value of the default Off Duty was incorrect. [ELD CSV Output File – Canada]

- Fixed an issue where there's no assigned CMV Order Number when the driver logs in with no vehicle. [ELD CSV Output File – Canada]

- Fixed an issue where the incorrect number of Data Diagnostics and Malfunctions were displayed. [ELD PDF Output File]
