

Feature/Functionality Changes & Updates

Explore Page

- **Order More Devices:** Order More Devices – Users with Admin permissions can now initiate a request to order more devices directly from the Explore Page in the Portal.

Learn more at [Ordering More Devices](#).

Alerts Page

- **Landmark Alert:** Users can now select an Asset as a Data Source option when creating a Landmark Alert from the Alert Page. Learn more about Alerts at [About the Alerts Page](#).

Bugs Squashed

Map Page - History Tab

- Enhanced the History timeline to ensure the selected time remains accurate, improving the handling of timezone selection
- Improved the vehicle pin functionality to ensure it moves smoothly on the map as the timeline history plays

Link: <https://help.gpsinsight.com/fleet-management-release-notes-1-14/> Last Updated: January 14th, 2025

- Updated the display to ensure addresses are shown correctly instead of latitude and longitude
- Aligned the historical points shown in the Activity tab of the Vehicle Card with those displayed on the map for consistency
