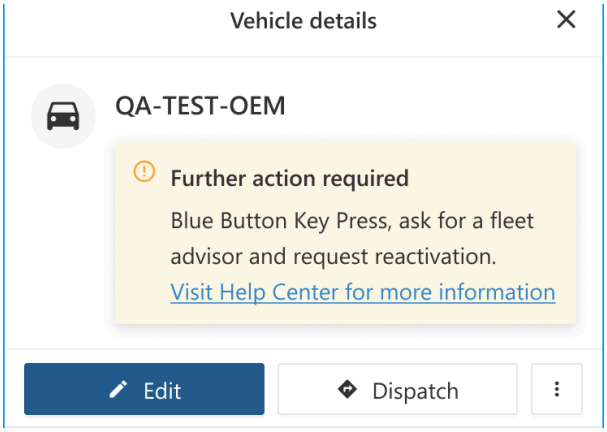
Portal Feature/Functionality Changes & Updates

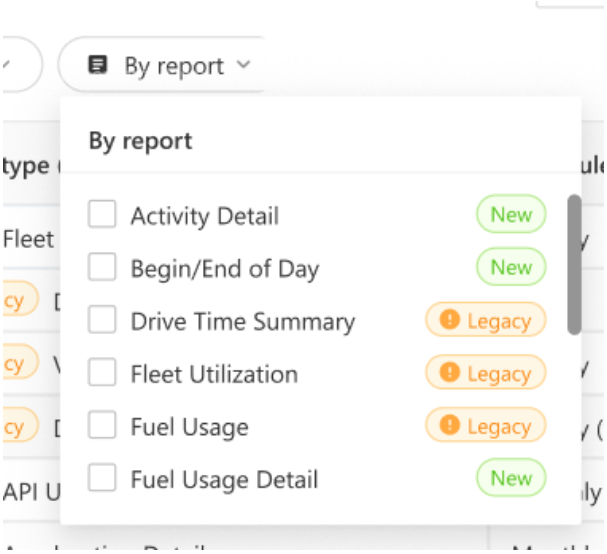
Map

- **OEM Enrollment Status:** Vehicles registered through OEM that require additional setup now display an enrollment status message on the Vehicle Card, with links to Help Center resources to guide you through troubleshooting steps before contacting Support.



Reports

- **Scheduled Reports Filter:** The Report Type filter dropdown on the My Scheduled Reports page now displays “New” and “Legacy” tags next to each report name for easier identification.



- **Reports Banner:** Added an informational banner to the Reports page clarifying that Legacy reports will not be archived until New Reports fully meet customer needs, with Legacy reports remaining accessible under the End of Life tab.

Portal

- **Dispatch Performance:** Improved dependency checks for dispatch recipients, resulting in better overall performance.

Bugs Squashed

Admin

- **Admin:** Users Tab: Fixed broken sorting on the Time Zone column in the Admin Users table.
