This Release Notes announcement highlights new hardware updates.

PNP-3200

We are introducing the PNP-3200, an upgraded model of the PNP-3100.

This Plug-N-Play tracking device offers improved form factor & functionality. The PNP-3200 is a smaller and more compact device embedded with a hardware security module for cryptographic security, allowing for greater compliance with recent regulations.

For additional information, contact your Account Manager and visit the PNP-3000 Series device page: PNP-3000 Device Page.
