

This Product Release Notes announcement includes notification of Portal updates.

Portal

Our Classic Portal has retired as of March 6th!

In September, GPS Insight launched a new portal with a simpler interface and improved features such as a new, valuable UI for reports and an easy-to-use map filter. If you haven't made the switch from our Classic Portal to our new Portal yet, don't delay! Now is the time to start enjoying all the benefits. Watch our video to find out what you've been missing.

While our Classic Portal has served us well, it's time to say goodbye. As of March 6th, all feature and performance improvements will only be released in the new portal.
