

# Product Features and Updates - 1/09/2017

## Feature Updates

Link: <https://help.gpsinsight.com/product-features-and-updates-01092017/> Last Updated: January 9th, 2017

This Product Features and Updates announcement for GPS Insight **Pro/Enterprise** includes updates for Administration Functions.

### Administration Functions

## Metrics Reporting - Group Total Shown in Average or Summary

The Group Total label in **Metrics Reports** now reflects either the Average or Summary based on your selection in Report Options (⚙️).

Summary	
Metric:	Aggressive Driving Scorecard
Group:	Company XYZ
Vehicles Shown:	12 of 14
Report Period:	2/8/2016 - 5/7/2016 (90 days)
Group Total (Avg):	895 Score

## System Metrics - Input Summarization

The summarization data for some device-based events are now automatically available to you as a **system metric**. System metrics are not customizable, but you can report on them using Metrics Reports and dashlets.

Device Type	Description	Metric(s)
Custom Device Inputs	Devices that have been configured to use custom inputs (e.g., snow plow up/down, seatbelt on/off, etc.)	Two metrics per input: <ul style="list-style-type: none"><li>• Count of event</li><li>• On duration of event</li></ul>
<b>PNP-3000</b>	Devices that have the optional buzzer feature for in-cab alerts.	<ul style="list-style-type: none"><li>• Hard Braking Count</li><li>• Hard Left Count</li><li>• Hard Right Count</li><li>• Idling Count</li><li>• Rapid Acceleration Count</li><li>• Speeding Count</li></ul>
