

This Product Features and Updates announcement for GPS Insight **Pro and Enterprise** includes updates for Mobile and Reports.

Mobile

GPS Insight Driver App (Android) - Version 1.5.5

This update is now available on the [Google Play Store](#) and includes the following:

- Menu

The menu options on the GPS Insight Driver app have been updated with new icons.

Note. This update does not affect functionality.

Reports

State Mileage Report - Export

When exporting the State Mileage Report, the exported report now includes a column for vehicle VIN numbers. For additional information concerning the Export function, see [Running a Report](#).

Note. The column will not display if the report is run/viewed directly in the Portal.

Product Features and Updates - 02/2019
