

Feature Updates

Link: <https://help.gpsinsight.com/product-features-and-updates-09-2018/> Last Updated: September 18th, 2018

This Product Features and Updates announcement for GPS Insight **Pro and Enterprise** includes updates for Mobile and Administrative.

Mobile

GPS Insight Manager App (iOS)- Version 1.8.1

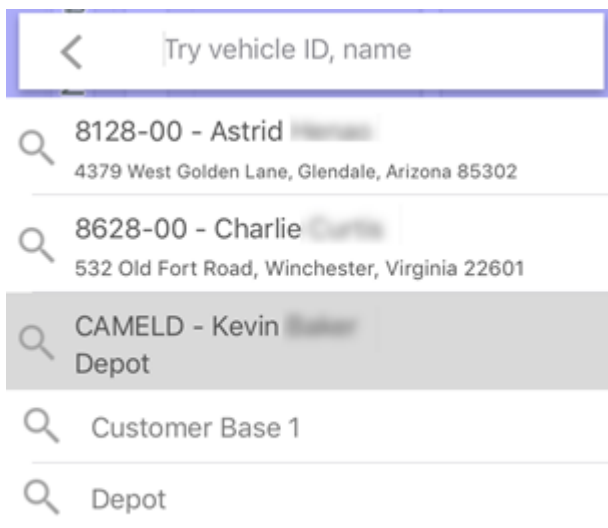

This update is now available from the [iTunes App Store](#) and includes the following:

- Search Bar

You may now search for vehicle ID/name, landmarks, and driver (if **assigned**) using the Search bar on the [Map](#).

Note. Searching for driver is available to **Pro and Enterprise** customers only.

Search History

The search bar retains your search history (limited to the last five searches) for ease of use and your convenience.

Return button

You may use the Return button to return to the Map from your search history in the Search bar. The Return button appears after you have tapped on the Search bar.

See [Using the iOS Manager Map](#) for additional information.

- Bug fixes and improvements

Driver Assignment

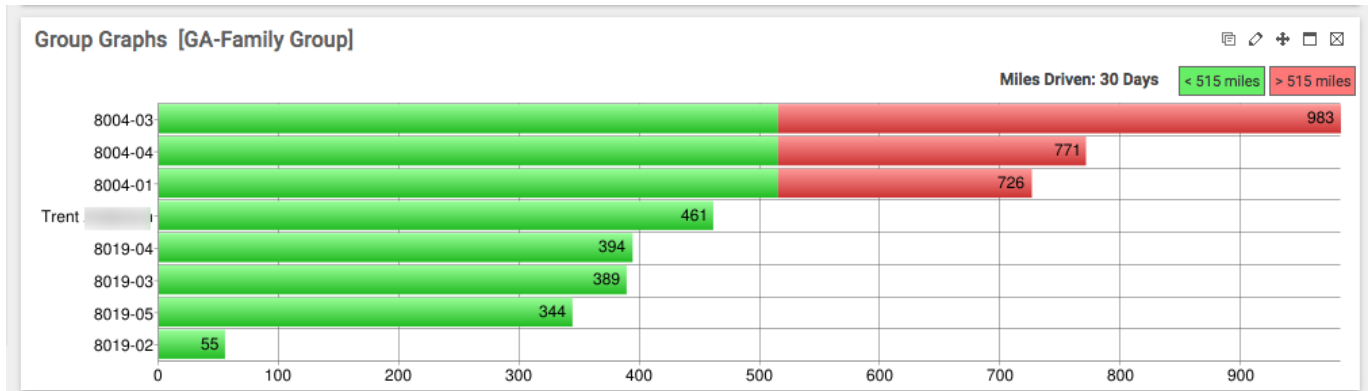

If a user does not have access/permissions to view a driver/driver group and a driver is assigned to a vehicle/asset, the assignment now displays as “Assigned” in reports with driver data and Account Management pages (e.g., Manage Vehicles and Groups page, etc.).

Fleet Begin/End of Day Report »

Date: Wed, Aug 22, 2018

Vehicle	Driver	Start Time	End Time	Day Duration	Trips	Drive Time	Distance	Odometer
8004-03	ASSIGNED Trent 927							
8004-04								
8004-01								
8019-04								
8019-03								
8019-05								
8019-02								
8 vehicles		1 driver			58	15.0 hrs		390.3 mi.

If a user does not have access/permissions to view a driver/driver group and a driver is assigned to a vehicle/asset, the driver associated with a vehicle/asset is not shown and only the vehicle label is displayed in applicable dashlets.

See [Managing User Access](#) for additional information.
