

Product Features and Updates - 10/02/2017

Feature Updates

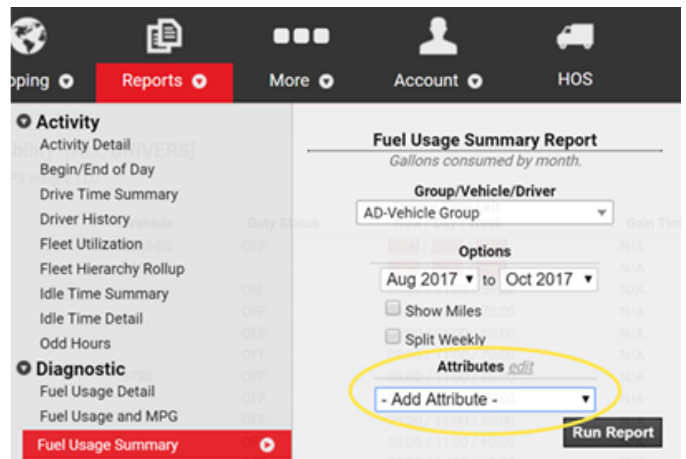

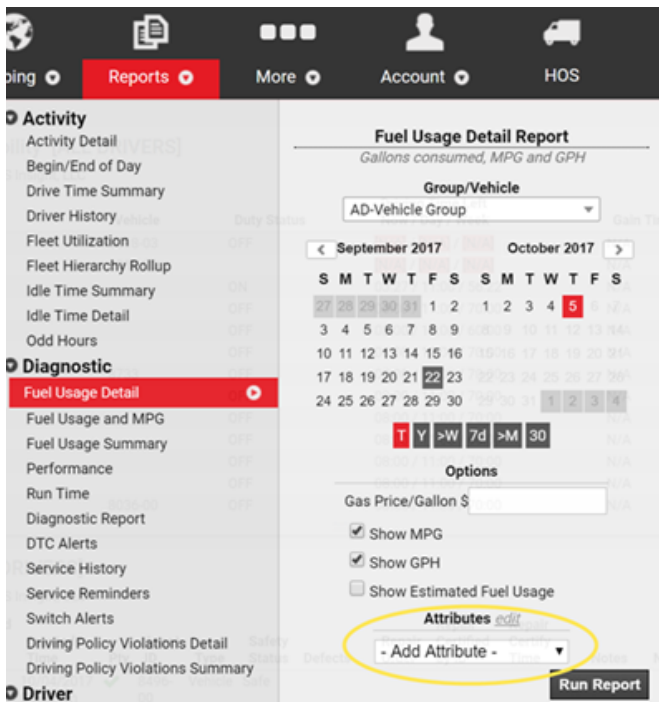

Link: <https://help.gpsinsight.com/product-features-and-updates-10022017/> Last Updated: October 5th, 2017

This Product Features and Updates announcement for GPS Insight Pro and Enterprise includes updates for Reports, Administrative Features, and Dashboard/Maps.

Reports

Fuel Usage Detail and Fuel Usage Summary - New Optional Field

The option to include attribute(s) is now available for Fuel Usage Detail and Fuel Usage Summary reports.

Administrative Features

Service Reminder Import

The Service Reminder Import now supports Interval Days (as shown in Example #1 in the Portal).

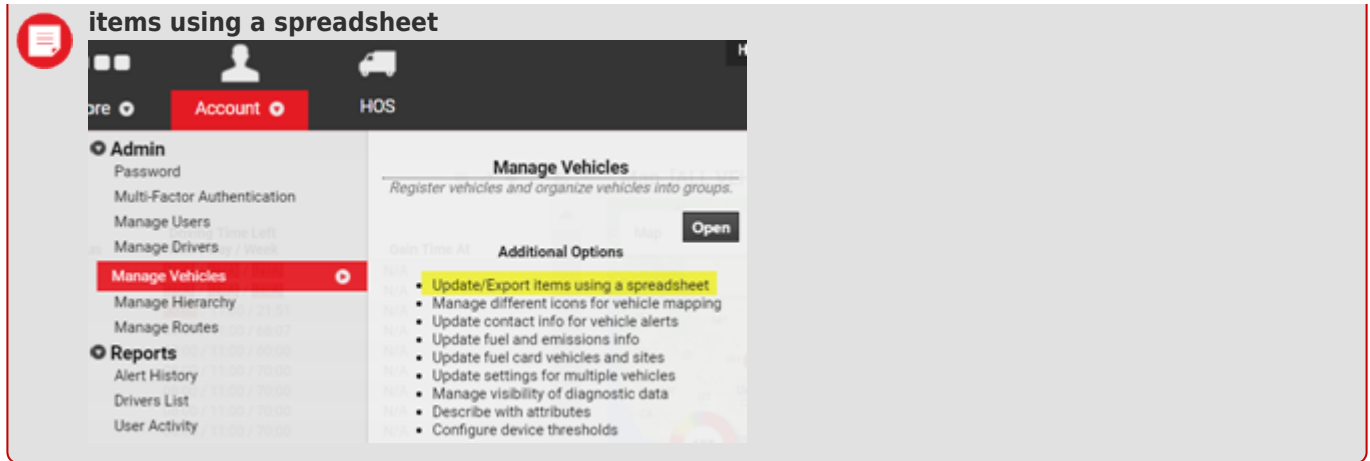

A	B	C	D	E	F	G	H	I	J
Vehicle Label	VIN	Serial Number	Service Label	Interval Miles	Interval Hours	Interval Days	Next Service Miles	Next Service Hours	Next Service Date
Test Vehicle	AZ10384387	112233	Oil Change	5000	500	30	8700	1100	5/16/2016

Note. Import/Export spreadsheets are located under **Account > Manage Vehicles > Update/Export**

See [Adding a Service Reminder](#) and [How Do I Import or Export Data?](#) for step-by-step instructions and additional information.

Customer Site List - Shared Link/HTML

A KML flat file is now provided as a link in the Customer Site page of the Portal for external integrations.

 **Note.** Customers who have the ArcGIS integration will be able to set their own refresh interval (Can be set to as little as 1 minute).

See [Customer Sites](#) for additional information concerning this API functionality.

Manage Active User Session

 **Note.** The following feature is only available to Admin users with User Admin **permission** enabled.

You can now view the users currently logged in to the Portal, which device/location they are logged in from and how long they have been logged in (Log in Date/Time) from the Manage Active User Session page. In addition, a **Force Logout** option () is available.
