## Feature Updates

---

Link: <https://help.gpsinsight.com/product-features-and-updates-10312015/> Last Updated: July 26th, 2016

This Product Features and Updates announcement for GPS Insight **Pro/Enterprise** includes additions to the dashboard, maps, reports, alerts, and administrative functions.

### Dashboard Updates

## Vehicle Selector Dashlet - New Options

A new “Show Attributes” option allows you to display attributes as additional columns on the dashlet. You must create and define the **attributes** ahead of time.

Custom Title:

Show Vehicles:  Vehicle Label:  Alternate Label:

Speed/Status:

Add Columns:

- Device Type
- Year/Make/Model
- Run Time
- Location Format:   Landmarks override addresses
- Attributes   Vehicle Type  Gross Lbs  Boom Height

Map Vehicle Limit:  *Max vehicles in a group map before switching it to vehicle.*

Filters:

- Hide Out of Range vehicles
- Only show vehicles at landmarks.

Dashlet Height:

Dashlet Group:  *Link other dashlets to this vehicle selection.*

Update Interval:

**With Attributes [ALL VEHICLES]** 📄 ✎ + 🗑️

Vehicle Group:

Attributes:

Filter:

Select/Deselect All

Label	Speed	Location	Vehicle Type	Gross lbs	Boom Height
<input checked="" type="checkbox"/> 4225 HD TEST	Out of Range 33 days	Scottsdale, AZ			
<input checked="" type="checkbox"/> AG	Last reported 34 min ago	Scottsdale, AZ			
<input checked="" type="checkbox"/> AL 3500	Out of Range 2 hrs, 57 min	Phoenix, AZ			
<input checked="" type="checkbox"/> Adam 3900iVB	53 mph WNW (88 max)	Scottsdale, AZ	Tow Truck	28000	50
<input checked="" type="checkbox"/> Danielle's Car	Stopped 10 min	Phoenix, AZ			
<input checked="" type="checkbox"/> DianePNP2 (Diane Antonio)	Stopped 82 days	Lacey Twp, NJ	Car	12000	
<input checked="" type="checkbox"/> Evelyn PNP (Evelyn Lawson)	44 mph E (70 max)	Phoenix, AZ	Truck	40000	75

The Vehicle Selector also shows the instantaneous speed of 0 (zero) mph as well as the max speed reached during the reporting interval. This situation would occur if a vehicle stops, the ignition is still on (green icon), but the idling threshold has not been reached (i.e., the icon has yet to turn blue).

## Map Updates

### Vehicle Card - New Item

For vehicles/assets that are utilizing **Temperature Sensors**, the last reported temperature displays as an additional line item in the vehicle card.

# Product Features and Updates - 10/31/2015

## Feature Updates

Link: <https://help.gpsinsight.com/product-features-and-updates-10312015/> Last Updated: July 26th, 2016

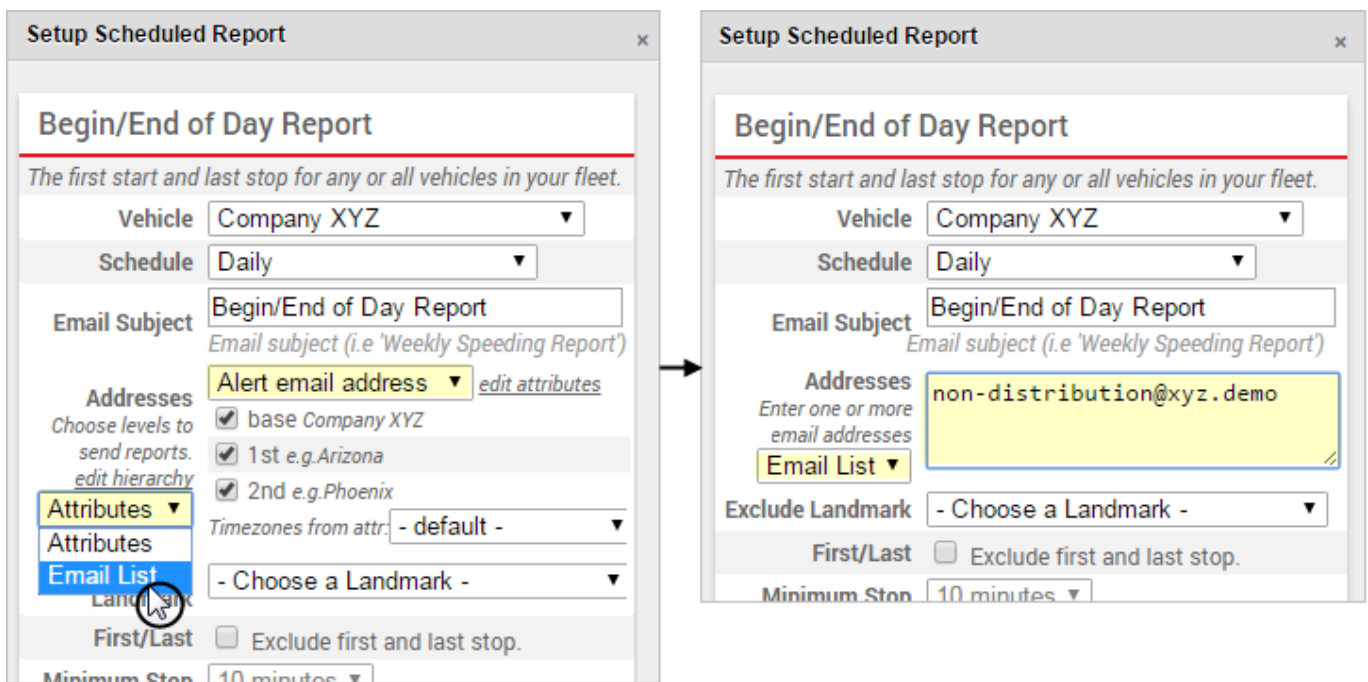

### Report Updates

## Scheduled Reports - New Hierarchy Override Option

If Hierarchy is selected on a Scheduled Report with an **automatic distribution list**, you can now choose **Email List** from the drop-down menu to display the normal Address box in order to enter specific recipients.

**Note.** Hierarchies are available for **Enterprise customers**.

The image shows two side-by-side screenshots of the 'Setup Scheduled Report' dialog box. The left screenshot shows the 'Addresses' dropdown menu open, with 'Email List' selected. The right screenshot shows the 'Addresses' field populated with 'non-distribution@xyz.demo' and the 'Email List' dropdown menu expanded. An arrow points from the left screenshot to the right one, indicating the transition.

## Schedule Reports - New Weekend Option

Scheduled Odd Hours Reports now have the **Treat as Weekend** option:

# Product Features and Updates - 10/31/2015

## Feature Updates

Link: <https://help.gpsinsight.com/product-features-and-updates-10312015/> Last Updated: July 26th, 2016

### Setup Scheduled Report

#### Odd-Hours Report

Report on driving-time violations.

Vehicle: ALL VEHICLES

Schedule: Weekly (weekends)

Email Subject: Odd-Hours Report  
Email subject (i.e 'Weekly Speeding Report')

Addresses: Enter one or more email addresses

Start Time: 7 PM :00

End Time: 4 AM :00

Landmarks: - ALL LANDMARKS -

Restriction: - ALL VIOLATIONS -

Treat as Weekend:

Email Body:  HTML  Text

Attachments:  None  No zipped

Delivery:  Don't send empty reports

Active:  Yes  No

**Schedule Report**

All movement recorded within violation hours shown with their location.

**close**

Edit the report's schedule to define the weekend span:

### Edit Weekly (Weekends)

daily weekly monthday halfmonth monthweek

Every 1 weeks on:  Sunday  Monday  Tuesday  
 Wednesday  Thursday  Friday  Saturday

**Preview Schedule**

Start: 07/09/2012 and end:  never  by 6/28/2017

Span: 3  day(s)  month(s) Reports may span a number of days and will be run on the dates specified by the recurrence pattern above.

Generate report at: 03:00 AM Daily reports generated before 12 PM (noon) will report on the previous day. After 12 PM (noon), reports will use the current day's data.

Skip days before sending: 0 Delay report generation for a number of days (i.e. waiting for fuel card data)

### Alert Updates

## New Alert - Temperature

A new **Temperature Alert** is available that triggers when the temperature reported with each update exceeds or falls short of the set threshold. This alert is on a per account basis, and customers can specify thresholds.

### New Temperature Alert

Create new *Temperature Alert*

Vehicle: ALL VEHICLES

Alert Subject: TOO HOT TEMP ALERT

Addresses: hotandcold@food-bev.demo  
Enter one or more email addresses or SMS numbers

Notify Driver:  send with note: Check Fridge  
to current driver or the contact info for the vehicle

In-Cab Notify:  None  Buzzer  Light  Output 1

Temperature: 60 °F  Above  Below

Weekdays: Sun M T W Th F Sat  
        
 All Day  Off  Odd Hours

Weekends: Sun M T W Th F Sat  
        
 All Day  Off  Odd Hours

Landmark:  Inside  Outside  N/A

Repeat Delay: 2 Minimum minutes between alerts

Per-Vehicle Delay: 20 Minimum for alerts on same vehicle

Active:  yes  no  apply date range

**Create New Alert**

**Note.** Unlike the Temperature Option on the Switch Alert, this is a software based alert. It will **NOT** trigger if the device is not reporting (i.e., stopped/ignition off, etc.) **3900 devices cannot** support Temp Sensing AND Driver ID simultaneously. Only **4000s**.

### Administrative Functions

## Spreadsheet Update/Export - New Options

The [Spreadsheet Update/Export page](#) now allows for Mass Delete of Drivers and Users.

- For Drivers, enter **delete** in the **Reference ID Update** column.
- For Users, enter **delete** in the **Last Name** column.

	A	B	C	D	E	F
1	Driver Full Name	Reference ID Update	First Name	Last Name Update	Timezone	Email Address
2	Scott Anderson	delete	scott	anderson	MST	scott.anderson@xyz.com
3	Smitty Andrews	delete	smitty	andrews	MST	smitty.andrews@xyz.com
4	Ted Jones	delete	ted	jones	MST	ted.jones@xyz.com

	A	B	C	D	E	F
1	Username	Password	First Name	Last Name	Email Address	Address
2	jdearing	1111	John	delete	john@xyz.demo	1234 Main St
3	msmith	2222	Mary	delete	mary@xyz.demo	493 Jefferson St

## Webhooks - New Options

The growing library of “turn-key” [API Integrations](#) has begun. GPS Insight already works with a host of vendors, but this is the official tested list.

# Product Features and Updates - 10/31/2015

## Feature Updates

The screenshot shows the 'Webhook Manager' interface in the GPS Insight system. It features a navigation bar with 'Webhooks' selected. The main content area is divided into two sections: 'Webhooks' and '3rd Party Integrations'.

**Webhooks Table:**

ID	Name	Type	Response	Email	Content Type	Status	Queue Depth	Total Messages	Demo
6028	switch_alert	switch	Last Response	webhook@gpsins...	form	running	0	7525	Demo
7123	driver_assign_alert	driver_assignment	Last Response	webhook@gpsins...	form	running	0	11525	Demo
5451	hours_of_service_alert	hour	Last Response	webhook@gpsins...	form	running	0	5751827	Demo
54773	deal_alert	deal	Last Response	webhook@gpsins...	form	running	0	89084	Demo
71236	idle_alert	idle	Last Response	webhook@gpsins...	form	running	0	52133	Demo
71235	driver_test_speed	speed	Last Response		form	paused	0	121	Demo
71234	driver_test_location	location	Last Response		form	paused	0	158754	Demo
133838	inputs_alert	inputs	Last Response	webhook@gpsins...	form	running	0	1383	Demo

**3rd Party Integrations Table:**

ID	Integration Type	Options	Status	Queue Depth	Total Messages
4	Service Titan Integration	api key 646e0792-666b-4728-8a	running	0	881717

**Available Integrations:**

- Service Max +
- Service Titan +
- Fleetio +
- Asana +

## User Management - New Filter Option

You can now filter Users by Hierarchy node. Results will show that node and child nodes underneath. Hierarchies are available for **Enterprise** customers.
