

# Product Features and Updates - 3/6/2017

## Feature Updates

Link: <https://help.gpsinsight.com/product-features-and-updates-362017/> Last Updated: March 6th, 2017

This Product Features and Updates announcement for GPS Insight **Standard, Pro, and Enterprise** includes updates for Mobile Features.

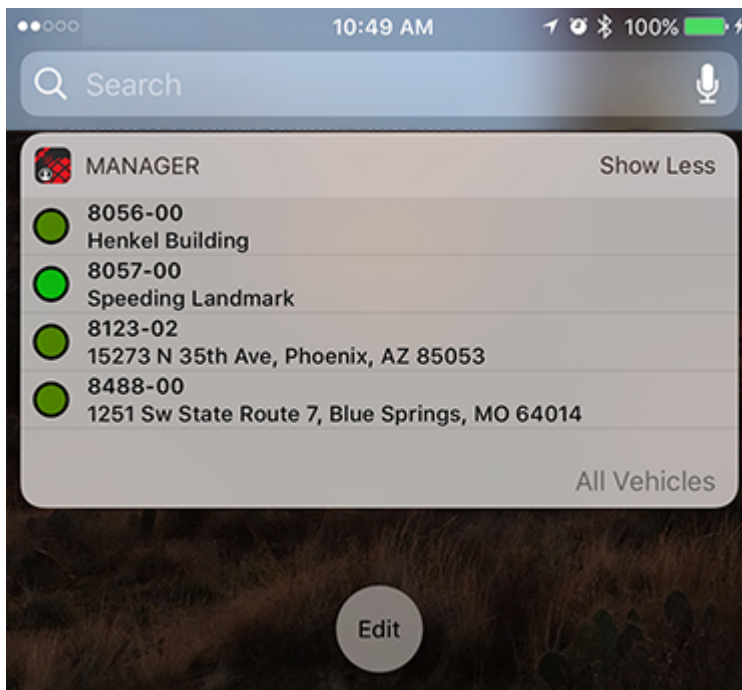

## Mobile Updates

### GPS Insight Manager App (iOS) - Version 2.3.4

This update is available from the **iTunes App Store** (starting March 16, 2017) and includes the following:

- Bug fixes and performance improvements
- A Today screen widget

The **Today widget** provides you with a list of moving fleet vehicles and the closest address to each moving vehicle. The list updates each time you open your Today screen on your device. Tap a vehicle from the list to open its location within the **Manager app**.

**Note.** Large fleet accounts may only see a partial list of moving vehicles. Tap **All Vehicles** to see all vehicles within the **Manager app**.

Refer to **About GPS Insight Manager (iOS App)** to learn how to add the widget.
