## Feature Updates

Link: <https://help.gpsinsight.com/product-features-and-updates-512017/> Last Updated: May 5th, 2017

This Product Features and Updates announcement for GPS Insight **Pro/Enterprise** includes updates for Administrative Features, Reports, and Mobile.

### Administrative Features

## PNP Threshold Configuration Page

This update includes a new page appearance and new steps on creating, assigning, editing, and deleting PNP Buzzer threshold configurations. See the [Configuring PNP Buzzer Thresholds](#) article for step-by-step instructions and additional information.

Vehicle	Serial Number	Device Configuration	Expand All
8000	4542236006	No Configuration	
8002-01	4542161414	Custom	
8004-02	4542162955	No Configuration (pending)	
8005-00	4542162720	Custom	
8006-00	4542157536	Test 2	
8006-01	4542163737	Test 2	

**Note.** The PNP Threshold Configuration Page is only available if your account has the supported PNP-3000VB devices. Contact your Account Manager if you are interested in learning more about the PNP-3000VB device.

## Stop Detail and Idle Time Report - Configurable Minimum Stop Value Options

You can now request a specific set of values to appear in the drop-down window of Minimum Stop options by contacting the [Support Team](#) if preferred over the default options available.

The screenshot displays the 'Stop Detail and Idle Time Report' interface. At the top, it says 'Printable report with stop detail and optional idle time.' Below this, there are filters for 'Group/Vehicle' (set to 'ALL VEHICLES') and a calendar for 'May 2017' with the 5th highlighted. Under the calendar, there are report options: 'T Y >W 7d >M 30'. The 'Options' section includes 'Start Time' (12 AM :00), 'End Time' (12 AM :00), 'Minimum Idle\*' (5 minutes), and 'Minimum Stop' (set to '- ANY STOP -'). A dropdown menu is open for 'Minimum Stop', showing options: '- ANY STOP -', '1 minute', '2 minutes', '3 minutes', '4 minutes', '5 minutes', '10 minutes', '15 minutes', '20 minutes', '30 minutes', and '1 hour'. The 'Minimum Stop' label and the dropdown menu are highlighted with a yellow box.

## Metrics Report - Group by Date Option

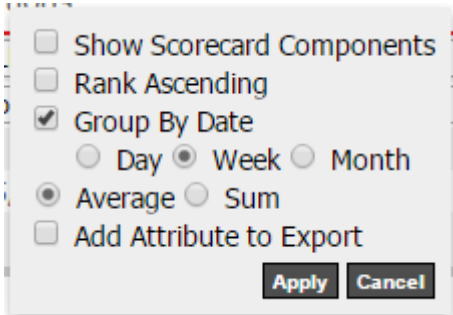

Metrics data can now be summarized by date groups (Day, Week, or Month) available in Report Options (⚙️) over the date range selected for the [Metrics Report](#).
