Feature Updates

Link: <https://help.gpsinsight.com/product-features-and-updates-7112016/> Last Updated: July 26th, 2016

This Product Features and Updates announcement for GPS Insight **Pro/Enterprise** includes updates for Reports.

Report Updates

Activity Detail Report - New Columns for In-Cab Alerts

Some **PNP devices** include an optional buzzer feature. When enabled the device uses **recommended thresholds** that alert drivers for rapid acceleration, harsh braking, hard right and left turning events, and idling (5 minutes).

The **Activity Detail Report** now shows historical instances of in-cab alert notifications, including the time the alert occurred and the cause of the alert.
