This Product Features and Updates announcement for GPS Insight **Pro/Enterprise** includes updates for Dashboards/Maps, Administration Functions, and Mobile.

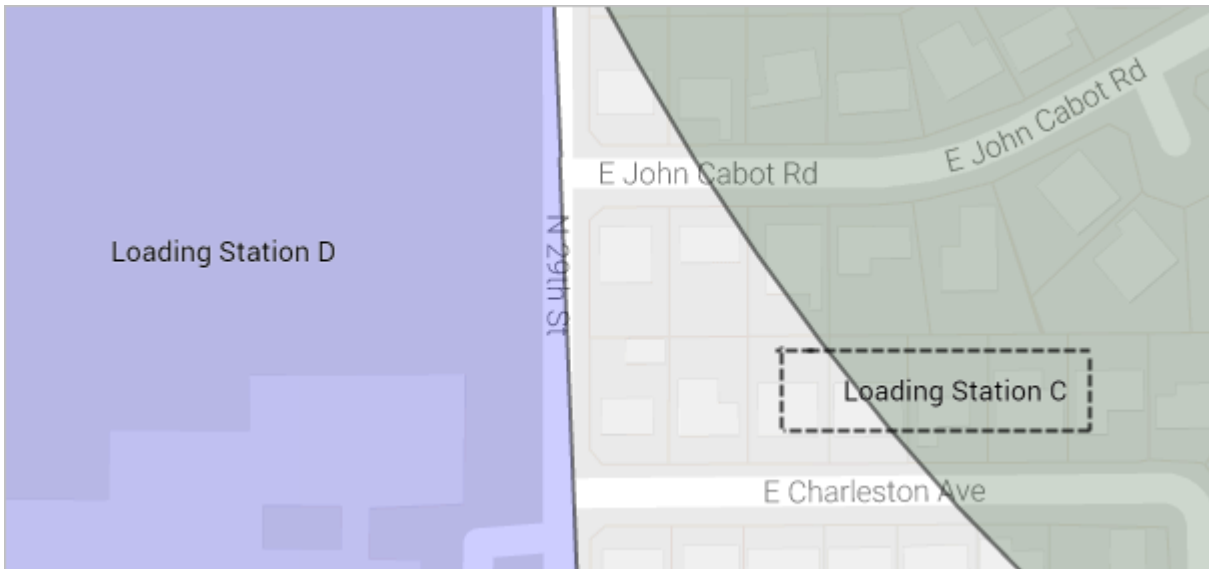

Dashboard/Map Updates

Map Dashboard - New Naming Convention and Landmark Display Updates

The **Map Dashboard** is now referred to as “Map.” You can still find it in the Dashboard drop-down.

Additionally, the landmark labels better support multiple and overlapping landmark boundaries. When zoomed into the map, landmark labels now recenter and float around the perimeter as you move your point of view on the map.

Administrative Updates

HOS - New Integration Configuration Options

The **HOS Integration Configuration** page continues to provide improved integration functionality between the **ISE application** and the GPS portal for **Hours of Service** customers.

Driver integration now allows you to choose Home Terminal, Web Login Role, and Terminal Access, which are populated from within the ISE application.

Add HOS Driver ID/Association [X]

HOS Driver ID

First Name

MI

Last Name

Home Terminal

Driver Type

Secondary Type

Web Login Role

Terminal Access

Portal Driver

Additionally, you can now view a list of ISE assets (vehicles and trailers) that have or have not been associated with a GPS portal vehicle (vehicle or asset).

eFleetSuite Assets (167) [Refresh]

ISE AssetID	Type	Portal Vehicle
danielsdesk	Vehicle	2006 Aston Martin V8 Vantage
JAGLDTEST	Vehicle	2012 GMC Terrain
