This Product Release Notes announcement for GPS Insight **Standard, Pro and Enterprise** customers includes updates for New Map/Home Page, Reports and Bug Fixes.

Map/Home Page

New Map and Home Page – Main Menu Title Added

“Main” has been added as a menu title for the Home Page and Map to the Navigation bar on the Home page and new Map pages.

Map

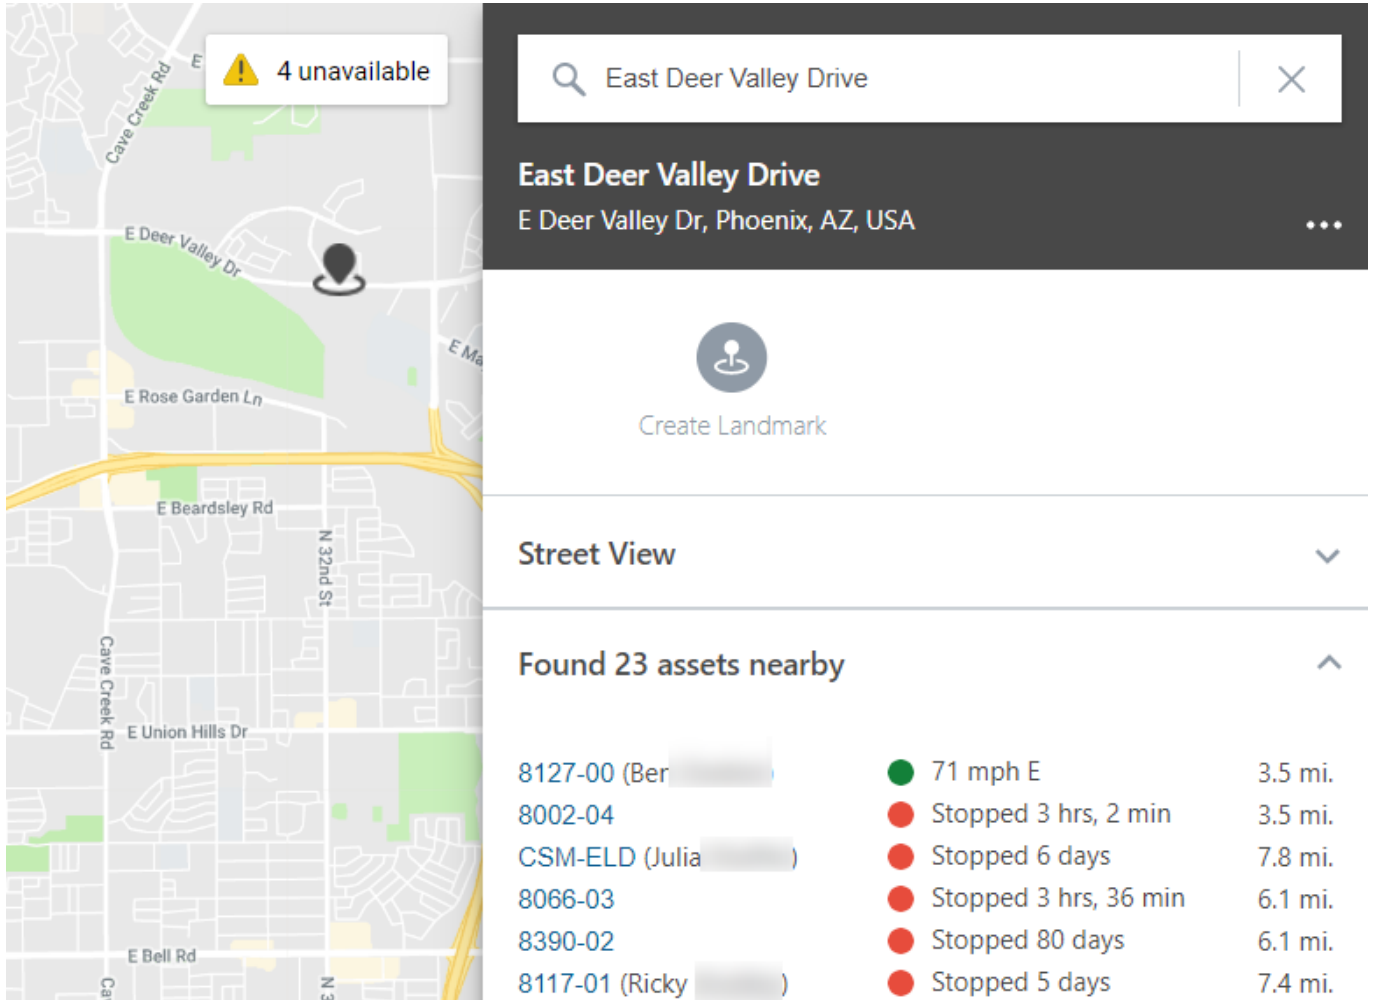

New Map – Search by Address and Point of Interest (POI) Now Available

The ability to search by address and/or POI in the Search Field is now available. After you have entered an address or POI into the Search Field, an Address Card is created. From the Address Card, you can copy the address location and/or open the address location in Google Maps in a separate browser, create a landmark,

view the Street View of the address location, and see a list of nearby assets to the entered address location.

The screenshot shows a map interface with a search bar containing 'East Deer Valley Drive'. Below the search bar, the address 'E Deer Valley Dr, Phoenix, AZ, USA' is displayed. A 'Create Landmark' button is visible. The 'Street View' section is expanded, and a list of 'Found 23 assets nearby' is shown. The assets are listed with their IDs, driver names, and associated events.

Asset ID	Driver	Event	Distance
8127-00	(Ber...)	71 mph E	3.5 mi.
8002-04		Stopped 3 hrs, 2 min	3.5 mi.
CSM-ELD	(Julia...)	Stopped 6 days	7.8 mi.
8066-03		Stopped 3 hrs, 36 min	6.1 mi.
8390-02		Stopped 80 days	6.1 mi.
8117-01	(Ricky...)	Stopped 5 days	7.4 mi.

See [Using the Address Card](#) for additional information.

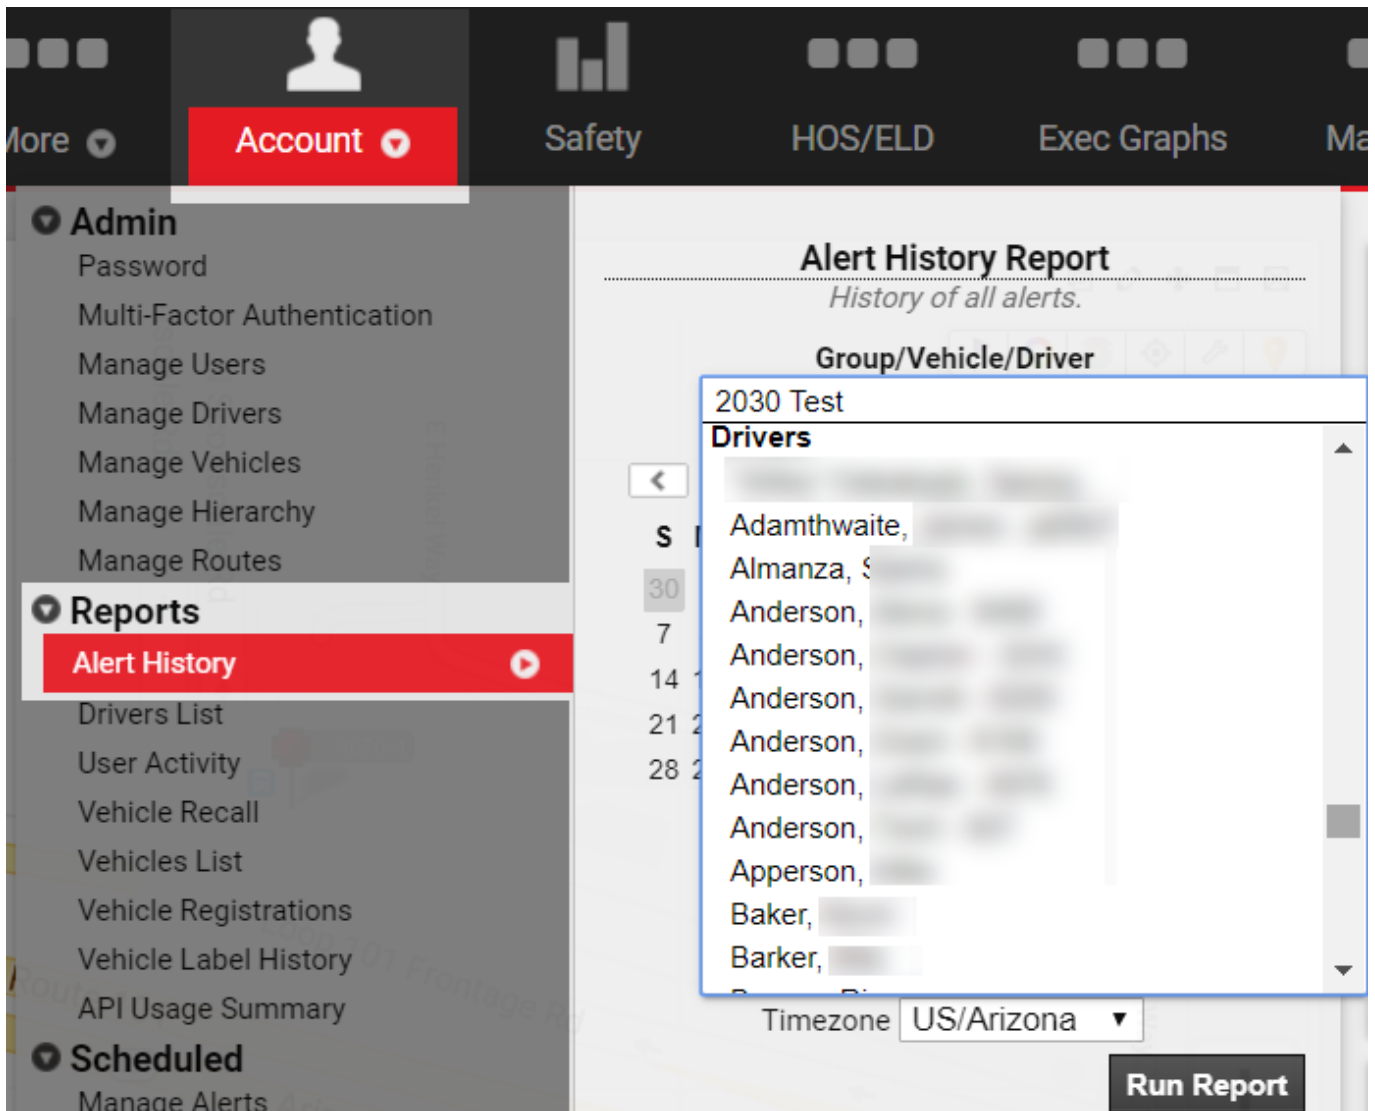

Reports

Alert History Report - Driver Filter Added

You can now filter the Alert History report by driver/driver group.
