

Portal Updates

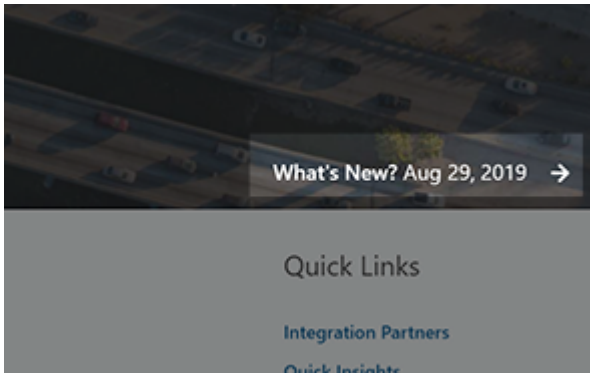

Link: <https://help.gpsinsight.com/release-notes-09-12-2019/> Last Updated: September 5th, 2019

This Product Release Notes announcement for GPS Insight **Pro and Enterprise** customers includes updates for Home Page, Reports and Bug Fixes.

Home Page

Home Page - Release Notes Link Added

A clickable link has been added to the Home Page to take you to Release Notes posted on the Help Center. Release Notes announce new features and updates to the product and are listed in chronological order under Feature Updates based on release date.

See [About the Homepage](#) for additional information.

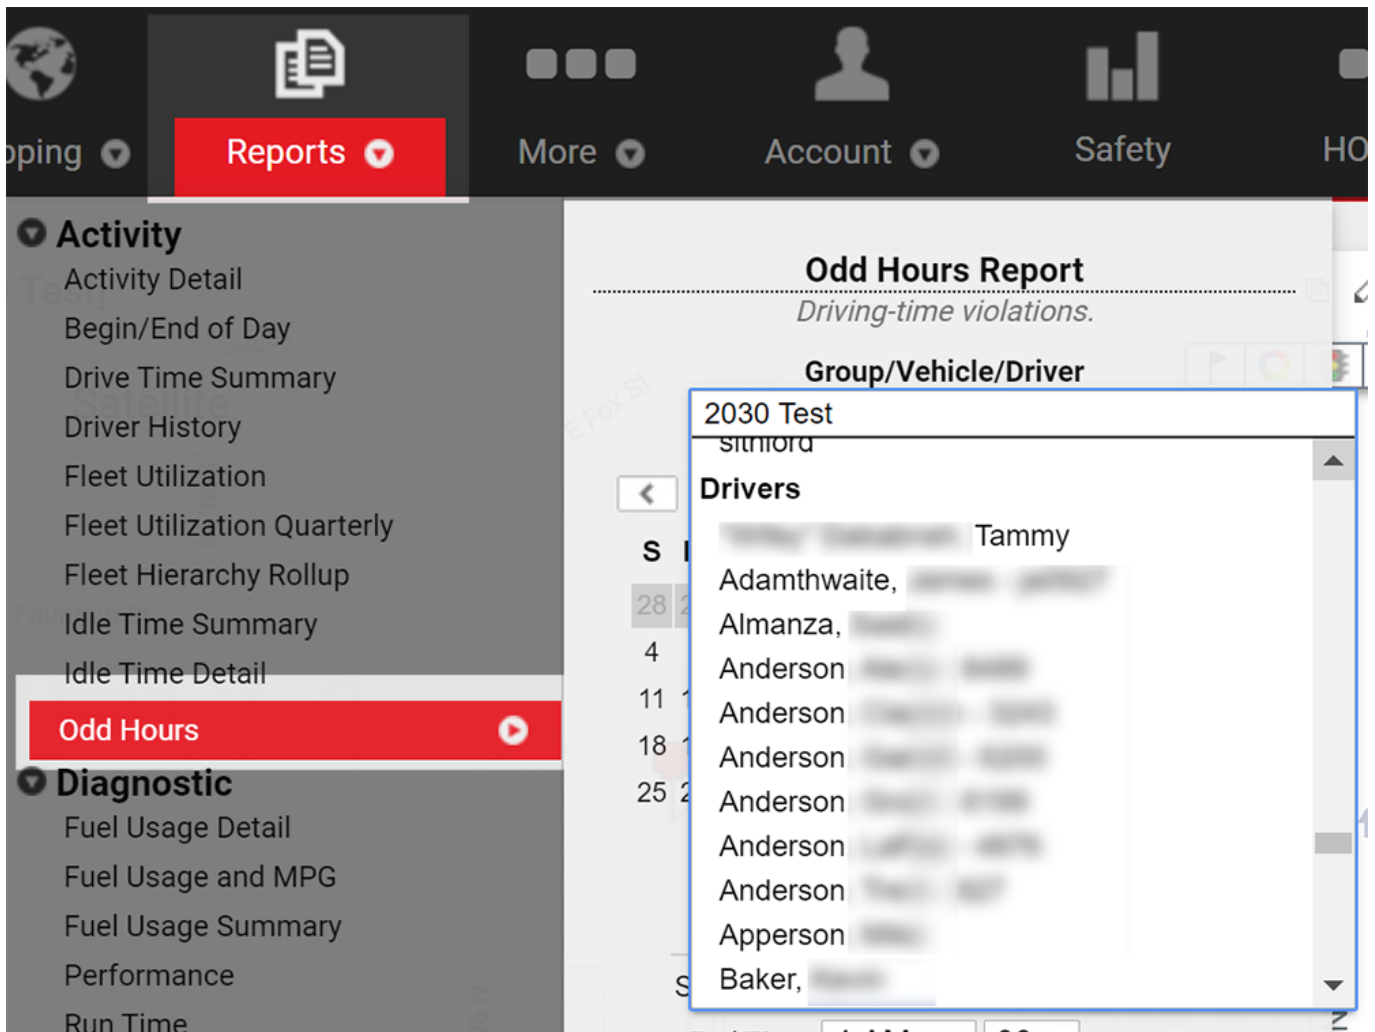

Reports

Odd Hours Report - Driver Filter Added

You can now filter the Odd Hours Report by driver/driver group data.

Portal Updates
