

Portal Updates, Smart Camera Updates

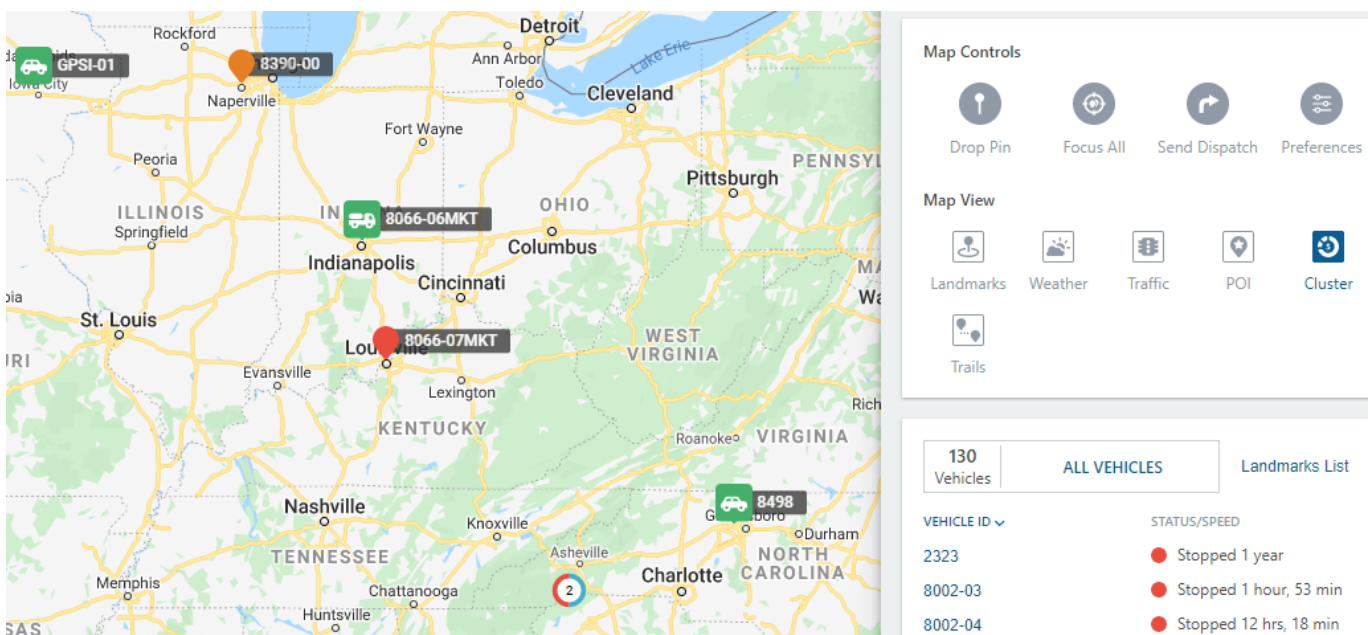

Link: <https://help.gpsinsight.com/release-notes-2-13-2020/> Last Updated: February 10th, 2020

This Product Release Notes announcement for GPS Insight **Standard, Pro and Enterprise** customers includes updates for Map, Driveri and Bug Fixes.

Map

Vehicle Icons

You can now see vehicle icons that are associated with your vehicles on the map!

Driveri

Driveri - New Customer Role: Operations Coordinator

The Operations Coordinator role has been added to the Driveri portal. This role manages the operational aspects of your fleet.

See the [User Role help site](#) for more details.

Driveri - Hi-G & Mod-G Alert Sub-Types

The following alerts are now classified into Sub-Types to help prioritize viewing alerts. New Sub-Types include:

- Rough Road
- Bad Mount
- Loading/Unloading
- Potential Accident

Portal Updates, Smart Camera Updates

- Engine Vibration

Driver - Audible Alert Annotations

Annotations will now highlight audible alerts played on the device.

A speaker icon will be displayed to indicate that an audible alert was played in-cab.

Bug Fixes

Bug Fixes & Enhancements

- Bugs were fixed for the Portal, Mobile Apps and ELD Connect
- UX enhancements were deployed.
