This Product Release Notes announcement for GPS Insight **Pro** and **Enterprise** customers includes updates for Map and bug fixes.

Map

Map Layout Update

The map has been updated with a new top toolbar and collapsible left navigation.

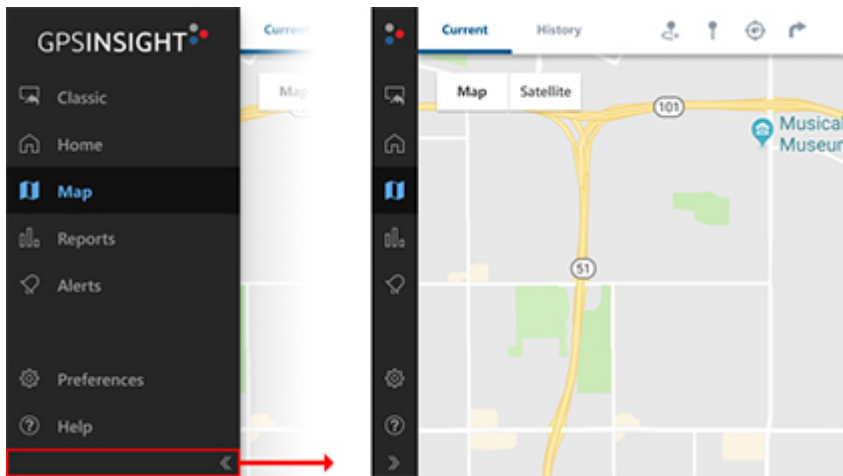

Top Toolbar: We've moved map controls and toggles into a toolbar above the map to maximize vertical space for driver, vehicle, and landmark lists.

Left Navigation: You can now collapse the navigation bar down to icons to maximize viewing of the map.
