Portal Updates

New Drive360 Manual Clip Request

Vehicle Cards for vehicles equipped with a Drive360 camera now offers the ability to manually request a clip for a custom timeframe, check your account's current clip quota, and view a manually requested clip from the Manual requests section.

Benefits

From the Vehicle Card, users can:

- Request a clip manually that is not a camera event-based clip
- Input a custom date and time
- Request a 30-second or 1-minute clip
- View uploaded clip within the GPS Fleet Tracking Portal for 90 days
- View current clip quota (25 clips per camera, pooled across the account)

To learn more, please visit [About Drive360](#).
