## Launching Simple Admin & Camera Admin

We are excited to introduce Simple Admin and Camera Admin, administrative pages that simplify fleet management, giving you the tools you need for seamless oversight—all from one intuitive platform.

### Simple Admin

Introducing Simple Admin – a streamlined solution designed to empower Enterprise and Advanced Admin add-on customers with essential administrative controls. Now, managing your fleet is easier than ever with access to key administrative functions directly from the Fleet Tracking Portal.

### What is Launching?

Simple Admin provides Admin users with access to basic administrative functionality from the following Admin page tabs in the Fleet Tracking Portal:

- User admin
- Vehicle groups admin
- Drivers admin
- Driver groups admin
- Landmark groups admin
- Camera admin

### Benefits

With Simple Admin, you can efficiently oversee and manage:

- **User Administration** – Control and manage user access effortlessly.
- **Vehicle Groups Administration** – Organize and optimize your fleet structure.
- **Drivers Administration** – Maintain and update driver details with ease.
- **Driver Groups Administration** – Streamline driver management for better efficiency.
- **Landmark Groups Administration** – Define and manage key locations for improved tracking.
- **Camera Administration** – Configure and monitor your fleet’s camera systems.

Simple Admin simplifies fleet management, giving you the tools you need for seamless oversight—all from one intuitive platform.

## Admin

---

**Note.** Advanced Admin settings cannot be accessed from the Admin tabs listed above. To access these settings, users can select the “Use Legacy Product” link available at the top of each Admin tab (excluding Camera Admin). This link redirects to the corresponding Admin page in Classic.

### Want to Learn More?

Please visit [About the Admin Page](#) for additional information.

---

### Camera Admin

Admin users with supported cameras installed in one or more fleet vehicles can now manage basic camera controls directly within the Fleet Tracking Portal using the Camera Admin tab.

### What is Launching?

Camera Admin is an Admin page that gives users access to basic camera controls. Admin users can view camera device details, download a .csv file of camera/vehicle information, manage basic camera settings, and initiate camera media viewing.

Please visit [About Camera Admin](#) for additional information.
