PNP-3000 Series Not Responding - Pinhole Reset

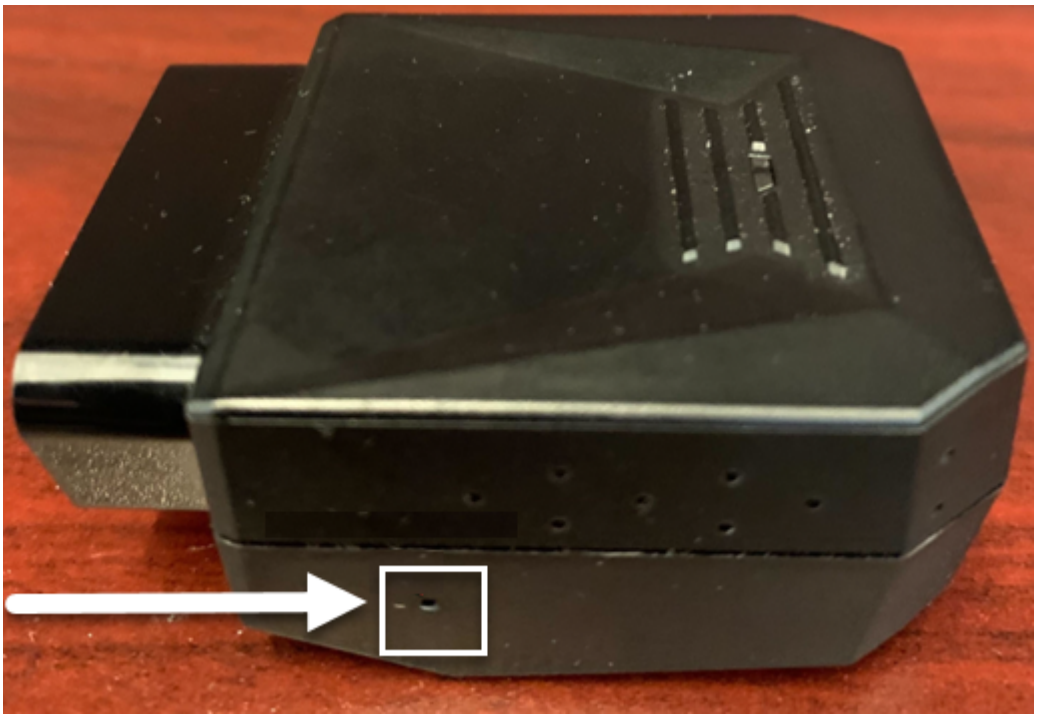
Link: https://help.gpsinsight.com/troubleshooting/pnp-3000-series-not-responding-pinhole-reset/ Last Updated: January 14th, 2026

Note. The PNP-3000 Series device has been discontinued as of January 2026.

If your PNP-3000 Series device is not working, please use the following troubleshooting steps to reset the pinhole.

PNP-3000 Series Pinhole Reset Procedure

1. Find the device reset pinhole.



2. Insert a small, unfolded paperclip or similar object and push in until you feel or hear a click.
